

2010 Hidden Ranch Tunnel Replacement Project  
Project Update  
August 27, 2010 – 3:10 PM

All,

This is the first official update for the Hidden Ranch Tunnel Project. I will try to do weekly updates, and perhaps more frequently as the project necessitates.

The main purpose of this email is to let you know that the construction will be starting as planned on **Monday, August 30**. Hopefully, you are all already aware of this, but just in case it slipped your mind or I missed you somehow, Westwood Curtis will be gearing up Monday morning, installing traffic control devices, and starting the clearing and grubbing work.

There is an anticipated utility shutoff tentatively scheduled for **Wednesday, September 1<sup>st</sup>**. The shutoff will interrupt water service while a temporary reroute line is established to maintain water service for the project duration. It will likely be limited to a couple hours in the afternoon and mainly to the houses on Hidden Spur Lane and Hidden Ranch Lane. Westwood Curtis (the contractor) will provide 48-hour advance notification for all planned utility interruptions.

The next planned utility interruption will likely be on **Tuesday, September 7<sup>th</sup>** and will affect cable and maybe electricity. More info will be provided next week. Again, you will be notified at least 48 hours in advance.

I'll be posting some updates and additional info on the Town of Jackson website this weekend. In the meantime, we've been working hard with the contractor and the engineer to cover all our bases in getting things ready to go. You may see some preliminary activity at the site today (clearing the runway for Monday), and some signs posted along the pathway alerting pathway users about the project. There will be a press release in the paper either Saturday or Monday.

As always, please feel free to contact me with any questions.

Thanks,  
Brian
